IC PAVANI KUMAR
(ANDHRA)

My ^{first} son, ~~Pavan~~ Pavan Kumar is 17 years old.

We have discovered that he has cerebral palsy at the age of 2. He was born in our home at midnight.

Initially, we got a first opinion and once he ~~was~~ said that Pavan has CP, when we asked him solution, we were told that there is no proper treatment and Physiotherapy - (and surgery) is the only treatment available.

Went on through the years, we had been to lot of places all over India such as Delhi, Bhubaneswar, Chennai, Mumbai, Thiruvananthapuram, Vizag etc. However, we could not find proper treatment all these places.

Finally, we came to know about Dr. J.K. Jain Sir through his ~~letter~~ friend - Dr. Ram Kumar (Mrs. Ornel - Vijay) and we immediately came here. Once Sir has examined him, he asked his ~~to~~ ^{to} surgery immediately. On Sept 16th, 2016, surgery was done for both legs. And Physiotherapy ~~is~~ started immediately under the professional guidance of Sumedha & ~~Shilpa~~ Darshy.

Now, just 6½ months, he has improved a lot, in terms of walking, standing, functional activities etc. Hope the continues to improve.

Best Thanks to Jain Sir, Vijay Sir, Amit Sir, Raj Sir,

Dr. Ram Kumar Sir, and all other doctors of Sumedha
